THE BLACK MENTAL HEALTH MANIFESTO

23 recommendations for structural change — published by the Black Mental Health and Wellbeing Alliance, April 2024.
All statistics below are suitable for publication with the citations provided.

Black people are detained under the Mental Health Act at **nearly four times** the rate of white people (262.4 against 65.8 detentions per 100,000).

NHS England, Mental Health Act Statistics, 2024-25

Only **8.2%** of Black adults are receiving mental health treatment, compared to **18.4%** of White British adults.

NHS England, Adult Psychiatric Morbidity Survey, 2023/4

Black men are **10 times** more likely to experience psychosis than white men (3.2% vs 0.3%).

NHS Digital, APMS, 2016

9 in 10 BAME-led charities were at risk of closure within the first three months of the COVID-19 pandemic.

Voice4Change England & ACEVO, 2020

Black people are almost **9 times** more likely to be stopped and searched by police. Negative police interactions increase risks of PTSD and depression.

Home Office, Stop and Search Statistics, 2023

Mental ill-health costs the UK economy **£118 billion** annually through lost productivity, benefit payments, and health and social care costs.

McDaid et al, London School of Economics, 2022
